**Dear Brothers and Sisters,**

**In a continued effort to keep you informed, we encourage you take a minute and consider this...**

**Did you know that the LIRR is by far the most productive and economically efficient commuter railroad in the country and that its employees (that's you!) are the most productive as well? As a result of your hard work the LIRR has the lowest labor cost per passenger mile in the industry. In the real-world lower cost and greater productivity translates into higher wages... Why not on the LIRR??**

**No spin. Just facts with more to follow...**

**In solidarity,  
IBEW L.U. 589 Bargaining Committee**
